PROFESSIONAL SUMMARY

Backend Engineer with 3 years of experience building enterprise systems with PHP and Laravel across CRM, identity, and operational workflows. Strong in REST APIs, MySQL, queue-based processing, RBAC, SSO/OAuth and backend system design - hierarchical access control, resumable media pipelines, queued ETL and workflows

TECHNICAL SKILLS

Back-End: PHP, Laravel, OOP, SOLID, REST APIs, Eloquent ORM, Queues & Jobs, Inertia.js
Database: MySQL, Redis (queue & session store), Query Optimization, Eager Loading, N+1 Remediation
Security/APIs: OAuth 2.0, PKCE, JWT, RS256, TOTP/2FA, RBAC, HMAC-SHA256 signed webhooks
Integrations: Pusher real-time, NARA / OpenArch archival APIs, OCR extraction, WhatsApp Cloud API
Tools: PHPUnit, Laravel Telescope, Postman, Git, GitHub, Linux, cPanel
Front-End: HTML, CSS, JavaScript, React (familiar), Tailwind CSS

PROFESSIONAL EXPERIENCE

Laravel Developer | Surfiq Technologies - Lahore, Pakistan | 2024 - Present

- Built a custom OAuth 2.0 + PKCE SSO provider with RS256 JWT, centralizing authentication across apps.
- Implemented TOTP-based 2FA, JWT refresh rotation, and blacklist-based logout for secure token handling.
- Designed hierarchical RBAC with Laravel Gates and Policies: propagation and cascade revocation.
- Optimized genealogy graph API via BFS traversal, eliminating N+1 queries and tuning Eloquent.
- Integrated NARA and OpenArch.nl APIs to search and ingest historical records and OCR pipelines.
- Built queued Excel workflows processing 20K+ row imports with chunking and duplicate resolution.
- Engineered budget allocation and race-safe sequential quote numbering using Cache::lock + Dompdf.
- Built network migration tooling extracting circuit/port data with confidence-scored regex rules.
- Built real-time messaging and notifications with Pusher + Laravel Echo private channels.
- Designed a resumable chunked-upload pipeline (HMAC tokens, idempotent chunks) over cellular links.

Freelance Web Developer | Self-Employed | 2023 - 2024

- Built a Laravel shipment-tracking platform: multi-stage state machine with IMAP auto-ingestion.
- Built a recruitment platform (postings, applications, documents, policy ack, onboarding).

EDUCATION

The Islamia University of Bahawalpur, Pakistan - B.Sc. Computer Science (2024)

CERTIFICATIONS

Advanced Laravel Development - Udemy (March 2023)
